Chương trình mặt trời 太阳能计划 सौर कार्यक्रम barnaamijka qoraxda

## Applications are now open for two solar programs (2017 – 2021)

### 1. Solar Saver Program

**Solar Saver** has been developed to help people install solar photovoltaic panels. Council pays the upfront cost. You (the ratepayer) pay it off over 10 years through quarterly rate payments. Details, regarding the size of solar systems and eligibility criteria, will be provided to applicants via updates. **IMPORTANT:** Installation will take place from mid – 2018.

### 2. Solar Bulk Buy Program

**Bulk Buy** offers households, organisations and businesses an opportunity to purchase a quality solar panel system from a trusted supplier at a low price. You pay upfront for the solar system, and choose from a range of sizes (2 kW to 10kW or greater).

Council wants to double solar photovoltaic panels in Darebin over the next four years.

Panels will have a 20 year warranty. Inverter and installation will have a 10 year warranty.

Council cannot guarantee you will be accepted into the program of your choice.

A no-obligation quote will be offered if solar is a viable option for you.

Applicants will receive further details and updates via email or post.

If you would like an interpreter to assist you please phone 8470 8470.

To register [CLICK HERE](#).

Please tell us your name, address, contact details, and which program you prefer.

Alternatively you can email [solar@darebin.vic.gov.au](mailto:solar@darebin.vic.gov.au) or phone Council 8470 8888.
