The Early Parenting Program service aims to be an accessible, equitable, inclusive, safe and respectful service that actively welcomes and supports the inclusion of all children and their families. We value and celebrate the diversity of families who use our service.

When will my child say their first word? How many words should my child say at the age of 2 years. How do I respond to tantrums? Why is it important to repeat words? What can I do to help encourage my child's language and speech development?

Darebin Early Years Team and Your Community Health are hosting a Words are Everywhere parenting session for Darebin families with children aged 12months to 4years.

The session is interactive, and families will have the opportunity to ask questions. Families will be provided with information on topics relating to language development. Play spaces for children will be used as part of the program.
